## Storage and Logistics

Automated solution to help  
manufacturing

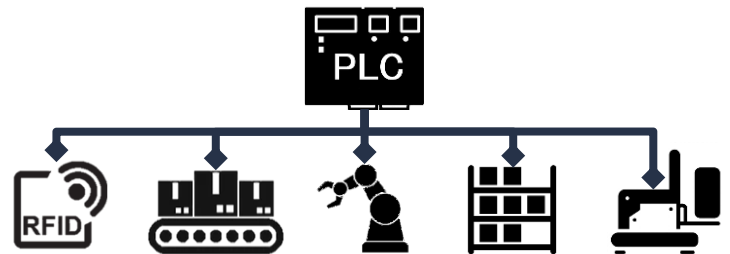

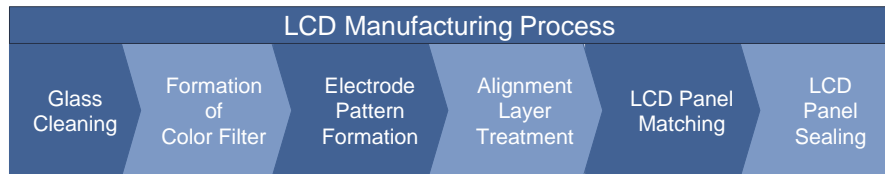

## Automated Storage and Logistics

# 25 Miles

of in-production equipment  
inside cleanroom, helping to  
produce 11% of world demand  
for LCD screens

Since 2003, we started an ongoing project for **AU Optronics Corporation** to design and build the automated storage and logistics systems for their 24/7 LCD panel manufacturing.

**Integrate Information**

**Reduce material waiting time**

**Avoid Human Error**

**Increase Utilization**
